

A group of volunteers who help to maintain the bridleways in South East Shropshire

Regular work parties on local routes to improve access for horse riders and walkers.

We are just a friendly group of people who are interested in keeping riding routes open and safe where possible.

We are continually looking for opportunities to raise money to help pay for expensive materials, especially stone and digger work.

The local authority is facing large cutbacks in its budgets. We are trying to help ourselves, with their support.

Do you and/or your family enjoy riding and walking in the area?
Then please consider making a donation, or offering your help or expertise.
Every penny we raise goes towards the upkeep of local paths.
